55 Marathon/Sea Pro
75 Marathon/Sea Pro
175 Magnum EFI/XRi
200 Magnum EFI/XRi

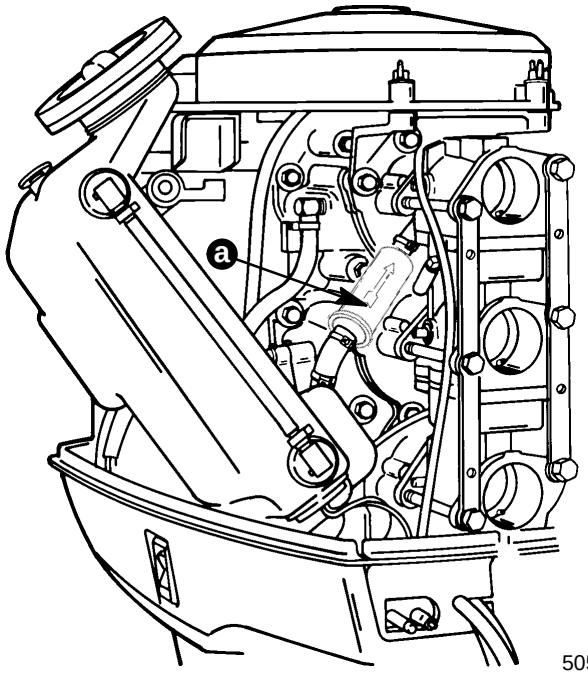

FUEL PUMP KIT

14360A42 - With boxing date code 6/5/91-thru-5/1/92

Outboards listed, require the replacement of the in-line fuel filter (Figure 1) to prevent the possibility of fuel leakage. Affected in-line fuel filters may develop a leak at the sonic weld area. (Figure 2)

OWNER NOTIFICATION:

A letter will be sent to every registered owner of an affected model within the above serial number range. The letter will advise the owner to call for an appointment and return their outboard to the selling dealer for warranty replacement of the in-line fuel filter. A copy of the letter is attached to this Service bulletin.

50527

a - Fuel Filter Location (50/60 Model)

Figure 1.

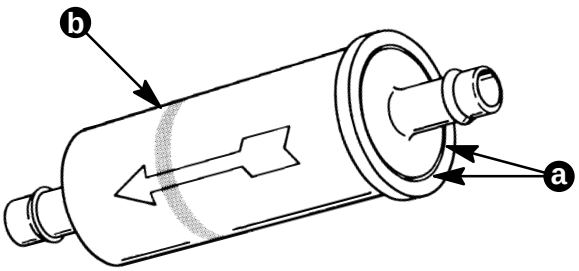

REWORK/PART IDENTIFICATION:

Outboards within the serial number range listed that have been reworked at the factory are identified by:

– A blue dot sticker applied on the outboard serial number label of the shipping carton.

– A blue or black marker ring around the fuel filter.

A blue or black marker ring around the fuel filter body (Figure 2) indicates filters that DO NOT have to be replaced.
