Accessories for Force Outboards 1992/1993

This bulletin is to help clear up some confusion concerning the accessories that can/cannot be used on the Force motors.

CANNOT Be Used

The gauges listed below CANNOT be used on the Force motors.

ENGINE TEMPERATURE GAUGES

As listed on page 54 of the 1993 Accessories Guide.

WATER TEMPERATURE AND PRESSURE GAUGES

As listed on pages 55-56 of the 1993 Accessories Guide.

CAN Be Used

The following gauges CAN be used on the Force motors.

TEMPERATURE GAUGE

2-1/16 in. flush mount Force electric start 40 h.p. and up

Single pack F5H156

The power trim/tilt indicator kits are correctly listed in the 1993 Accessories Guide under the Force O/B accessories section page 175.

In addition, the tachometers are correctly listed in the 1993 Quicksilver Accessories Guide pages 50 and 51.

The following high output alternator kits are for the Force 90 and 120 h.p. motors that use the Thunderbolt ignition system. All 1992 90-120 h.p. and some late 1991 models use the Thunderbolt ignition system.

16 AMP ALTERNATOR KIT

40/50 h.p. . . . . N/A

70/90 h.p. 1992 & 1991-1/2 . . . . 822718A1
