## Required Harness - 4.0 Software Version Gauges

### Models Affected

SmartCraft Tach and Speed gauges 4.0 software version

### Situation

The new SmartCraft tachometer and speedometer gauge, software version 4.0, requires a new gauge harness:

- 84-8M0031688 ---- Tachometer harness
- 84-8M0031689 ---- Speedometer harness

The new gauge harnesses have a re-routed ground wire that is required when using 4.0 software version gauges. When installing new 4.0 gauge kits, or when replacing older SmartCraft gauges with the new 4.0 version, the installer must use the new harness supplied with the gauge kit. See the table below for gauge kit part numbers of the new 4.0 gauges.

### 4.0 VERSION GAUGE PART NUMBERS

Part Number	Description	Part Number	Description
889222K21	Tachometer only kits with harness	898283K11	Tachometer only kits (cruise) with harness
889222K22		898283K12
