No. 91-14

Exhaust Snouts P/Ns 523116-4 and 748116

Force Outboards has recently introduced a new exhaust snout for the 90, 120 and 150 outboards and the 90 and 120 L-drives. This newly designed part significantly reduces steering torque on these engines. When experiencing a steering torque problem with an older engine model the new exhaust snout will back fit and help solve the problem. The part numbers for the exhaust snouts are 523116-4 for the 90, 120 and 150 HP outboard and 748116 for the 90 and 120 HP L-drive. You can order these parts through your normal parts ordering procedure.
