## Wireless Dielectric Grease

### Models Affected

| Models Covered | Serial Number |
|---|---|
| Freshwater Wireless Series | All |
| Saltwater Wireless Series | All |

### Description

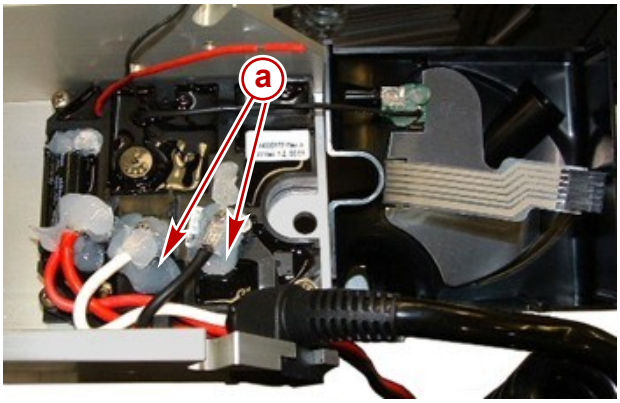

To assist in corrosion prevention, an application of Dielectric Grease should be used on exposed connections on the control board.

### Parts Required

| Description | Part Number |
|---|---|
| Quicksilver Dielectric Grease Compound | 92-823506-1 |

### Correction Instructions

Any time service is performed on a wireless model, apply Dielectric Grease over all terminals and exposed metal components (battery meter pins, antenna screw) on the controller board. The number of exposed components may vary between units. Also, apply the grease to the antenna connection and to the ribbon cable pins. Do not apply Dielectric Grease on the beeper.

31009

**a -** Dielectric grease
