Situation

Since May, 2010, three additional O-rings have been installed in the wireless lower units to provide additional sealing capabilities. These additional O-rings are blue in color and are used in conjunction with the red color O-rings.

Replacement Instructions

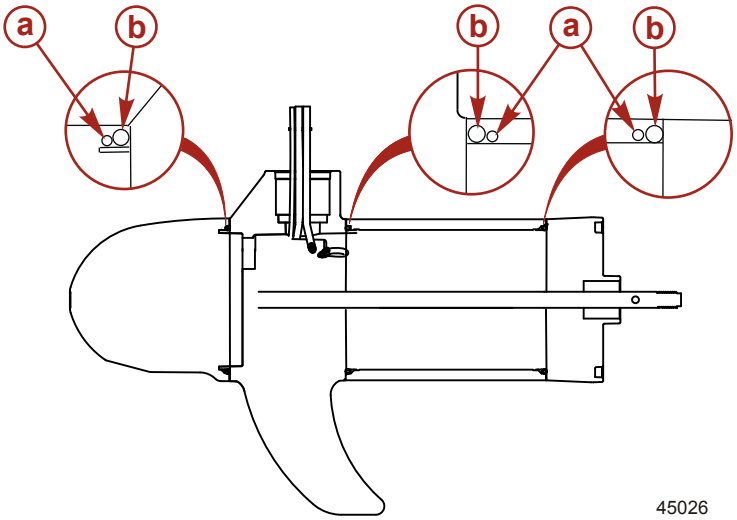

Refer to the appropriate service manual when servicing the lower unit. The blue and red O-rings must be installed in the specific location from which they were removed.

IMPORTANT: If, upon disassembly of a wireless lower unit, it is determined that there are no blue O-rings used in conjunction with red O-rings, do not install blue O-rings. It has been previously determined that the existing O-rings are providing the sealing protection required.

a - Blue O-ring (0.067–0.073 in. thickness)
b - Red O-ring (0.100–0.106 in. thickness)
